Summary

Web & Mobile App Developer with 2+ years of experience building responsive applications. Product-minded, performance-focused, and comfortable across the stack (React/Next.js, Node/Express, DBs). I care about DX, accessibility, and maintainable systems.

Experience

Full-Stack Developer · Freelance / Open Source

2022 — Present

- Built websites, internal tools, and APIs for small businesses.
- React/Next.js UIs with Tailwind & motion; accessible, responsive interfaces.
- Node/Express back-ends: auth, REST/JSON, integrations; deployments on Vercel.
- Prototyped mobile apps using React Native / Expo and Flutter + Firebase.
